Julie Woodward, your knowledge is encyclopedic, your energy is endless, and you make it all look easy. Thank you for teaching me so much of what I know. Roberta Gausas, thank you for sparking my interest in oculoplastics with your elegantly precise surgeries and for all of your support along the way. While I'm lucky to love what I do, my family is my greatest joy. We followed the Chicago sports teams growing up, and I always loved visiting the city. I finally started living in Chicago during my internship at UIC, and that is when I met my wife Ashley. She was a pharmacy student and we met on a blind date set up by a medical student I was working with and his wife, who was Ashley's pharmacy school friend. My interest in ophthalmic plastic surgery began during an 8-month stint at the Aravind Eye Hospital while in medical school. *I am originally from New York and have been fortunate to make Chicago home with my husband, Agith, and our children Jacob and Maya.*

*I have the privilege of working with the fine faculty and trainees at Northwestern University Hospital. Our children (ages two and a half and seven months) keep us very busy these days but I enjoy travelling and reading for leisure. I am very grateful for the continuous guidance of my many mentors, especially Drs. Michael Yen, Douglas Marx, Milton Boniuk, and Debra Shetlar, for the tireless support of my parents Chacko and Chinnamma Thyparampil, and for my wonderful husband, Agith, and our children. I look forward to continuing my career as an ASOPRS member!*
